

Name of the Faculty Member: Prof. Deepa Mangala

Name of Activity: HSB Student Stock Exchange

Name of Course/PAPER: Security Analysis/Portfolio Management

Semester: III/IV

Brief Description: HSB Students Stock Exchange has the objective of providing hands on training to the students of trading in equities. It is a mock stock trading game in which students are provided with a fixed sum of national money and they are supposed to construct their portfolios from the given investment alternatives. It is a three-stage game and every successive stage provides more investment alternatives to choose from. The game is played on moneybhai.com. Students not only develop interest in the subject, they practically start understanding how to interpret business news and how to evaluate stock fundamentals.
